BEETLE SPRAY PLUS FOR POULTRY

COMPETITIVE WITH TRADITIONAL TREATMENTS

Beetle Spray Plus provides outstanding performance and has a cost-per-treatment that is competitive with other natural and synthetic darkling beetle control products.

KILLS DARKLING BEETLE ADULTS ON CONTACT

Recent laboratory and field evaluations conducted by the University of Delaware's Dept. of Entomology and Wildlife Ecology concluded, "Nearly 100% mortality was observed from beetles treated with **Beetle Spray Plus**..."

KILLS DARKLING BEETLE LARVAE ON CONTACT

In those same trials by the University of Delaware, they concluded "We found near 100% mortality of *A. diaperinus* larvae treated with **Beetle Spray Plus**..."

DECREASES CHICK MORTALITY

The study by the Southern Poultry Research Group, evaluating **Beetle Spray Plus** on young broiler chickens, resulted in "improved livability" in the pens treated with **Beetle Spray Plus**.

INCREASES CHICK FEED INTAKE

This same study by the Southern Poultry Research Group, evaluating the **Beetle Spray Plus** on young broiler chickens, resulted in "a significant increase in feed intake in the **Beetle Spray Plus** treated pens."

OMRI LISTED FOR ORGANIC PRODUCTION

Beetle Spray Plus has been evaluated and approved by the Organic Materials Review Institute for use in organic poultry operations.
