- 55 Gallon Drum
- 275 Gallon IBC Tote

Signal Word:

- CAUTION

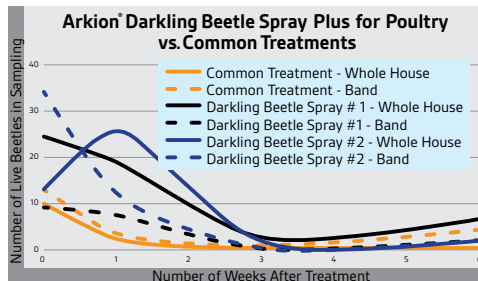

Darkling Beetle Control In Poultry Operations

Darkling beetles, particularly species like the lesser mealworm, can pose significant challenges and health risks within poultry houses. Understanding their impact on the poultry industry and the importance of control in poultry houses is crucial for effective management.

Challenges for Poultry Management

Darkling beetles can quickly establish large populations. They have a tendency to hide in cracks, crevices, and litter, making complete eradication challenging. Also, continuous use of chemical pesticides can lead to the pesticide-resistance, making pest management challenging.

Pest Management Strategies

Arkion® Beetle Spray Plus for Poultry complements proactive pest management strategies by providing an additional layer of defense against infestations. When used in conjunction with regular monitoring and sanitation measures, Arkion® Beetle Spray Plus for Poultry effectively targets and controls darkling beetle populations.

A Targeted Approach to Control

Integrating Arkion® Beetle Spray Plus for Poultry into a pest management plan allows for targeted applications. Apply in specific locations identified during monitoring, such as breeding sites

or areas with high beetle concentrations to maximize effectiveness. Arkion® Beetle Spray Plus for Poultry serves as a valuable component of a comprehensive strategy for managing darkling beetles. Its compatibility with existing practices ensures a holistic approach to pest control.

Eco-Friendly Solution

When used as directed, Arkion® Beetle Spray Plus for Poultry aligns with sustainable pest management practices, offering an eco-friendly alternative for darkling beetle control. Its natural formulation ensures minimal environmental impact while effectively reducing beetle populations in poultry operations.

Professional Consultation and Support

Arkion Life Sciences offers expert guidance and support regarding the application, optimal use, and integration of Arkion® Beetle Spray Plus for Poultry to ensure effective darkling beetle control.
